

ORENDA

Sustainability Assessment

The ORENDA Sustainability Assessment will simplify your organisation's sustainability position, and identify opportunities for improvement from all dimensions of your business operation.

Understanding Your Business Needs

The ORENDA Sustainability Assessment will help you understand your current sustainability state and establish future direction of your business. We will have a information session with senior executives to understand your organisation's key objectives. We will discuss the areas that matter most to your business, as well as issues that are of highest importance to your stakeholders.

Customized Assessment

Based on discussions with the management and initial observations, we will conduct a customized assessment of your business operation. The assessment will include:

- An onsite visit (one or multiple locations).
- Preliminary data collection.
- Baseline impact measurements: Energy | Waste | Water | Transportation | Materials.
- Materiality Assessment : Identifying Social and Environmental issues that matter most to your business and your stakehodlers.

The assessment will be done in accordance with Global Reporting Initiative (GRI) guidelines.

Diagnostic Report

A detailed Business Sustainability Report will be presented that will give you key information on where your organisation stands in terms of business sustainability. The report will provide detailed analysis on your resource use, identify key sustainability indicators, stakeholder priorities, cost reduction opportunities, and set a clear roadmap to develop a meaningful sustainability strategy.

- Cost benefit analysis.
- Sustainability reporting framework.
- Stakeholder prioritization and engagement.
